Spring 1930

TERMS OF SALE

Cash with order. Those of established credit known to us, 30 days. Boxing charged at cost, carload lots free. Sample sent at the prices quoted. No guaranty as to the growth. Complaint, if any, must be made within five days after receipt of stock, and all error on our part will be rectified promptly. Complaint made later will not be entertained. All orders accepted on condition that same shall be void should anything befall the stock, of which we have no control. Although we will ship any quantity at the 100 price, we expect to receive quantity orders at these low prices, and reserve the right to reject odd orders.

Hemlock, *Tsuga Canadensis*

This is the most beautiful, popular and hardy evergreen for all purposes, such as single specimen in lawns, borders, and foundation plantings, and makes the finest hedge in existence.

Our 3-18" are carefully collected seedlings, heavily puddled, and will make fine lining-out stock. Sizes 1-7' are very carefully collected and especially selected bushy plants with heavy clump and BxB in "Boskoop Burlap" for immediate planting, or for planting into nursery rows. Perfect specimens collected over 7' are shipped only in car-load lots and on platforms.

	Per 100	Per 1,000
3-6" seedlings coll.	\$ 2.00	\$ 15.00
6-12" seedlings coll.	3.50	28.00
12-18" seedlings coll.	5.50	50.00
1-2' coll. bushy specimen, BxB	40.00	350.00
2-3' coll. bushy specimen, BxB	80.00	750.00
3-4' coll. bushy specimen, BxB	130.00	1,100.00
4-5' coll. bushy specimen, BxB	230.00	2,150.00
5-7' coll. bushy specimen, BxB	385.00	3,500.00
Per 10		
7-10' coll. bushy specimen, BxB, on platform.....		\$140.00
10-12' coll. bushy specimen, BxB, on platform.....		200.00
12-14' coll. bushy specimen, BxB, on platform.....		250.00

We offer a limited quantity transplanted, very bushy specimens, fine for immediate landscape purposes, all BxB.

	Per 100
1-2' transplanted bushy specimen, BxB.....	\$ 75.00
2-3' transplanted bushy specimen, BxB.....	120.00
3-4' transplanted bushy specimen, BxB.....	200.00

We have a few taller sizes in transplanted stock, and prices will gladly be quoted.

White Pine, *Pinus Strobus*

These plants are all very carefully collected, and only real bushy specimen plants are selected, ready for immediate planting.

	Per 100	Per 1,000
1-2' bushy specimen, BxB	\$ 35.00	\$ 300.00
2-3' bushy specimen, BxB	75.00	700.00
3-4' bushy specimen, BxB	120.00	950.00
4-5' bushy specimen, BxB	215.00	1,950.00
5-7' bushy specimen, BxB	325.00	3,000.00

Important:—For best results, plant all Hemlock and White Pine with the burlap on, as we use imported "Boskoop Burlap" only.

FOR SPRING 1930 DELIVERY

	Per 100	Per 1,000
Juniper depressa plumosa from 2" pots.....	\$10.00	\$95.00
Juniper horizontalis from 2" pots	10.00	95.00

Kosters and New Moerheimi Blue Spruce Grafts

We are now offering on a large scale the real, genuine, Kosters and Moerheimi Blue Spruce grafts, scions taken from imported trees.

Although we consider summer grafting best, and keep the scions dormant during winter, we do winter grafting in limited quantities, and will ship either at the prices quoted. We use only scions from this last season's growth, and mainly with one straight bud and three side buds on top of scions, thus assuring you of a uniform plant right from the start. All stock will be shipped from 2½" pots in spring of 1930 or from fields in August, 1930.

New Moerheimi Blue Spruce is a splendid improvement of Kosters Blue Spruce, as it has a more intensive blue color, more numerous needles and grows to a perfect shape without trimming. The scions are taken from genuine and imported trees, not yet released.

When the grafts, where united, are planted below the surface of the soil, they will then next summer make root from the lower part of the scions and make a real vigorous plant.

	Spring 1930 from 2½" pots		August 1930 from field.	
	Per 100	Per 1,000	Per 100	Per 1,000
New Moerheimi Blue Spruce..	\$75.00	\$700.00	\$90.00	\$850.00
Kosters Blue Spruce	65.00	600.00	80.00	750.00

KOLKWITZIA AMABILIS (New Beautybush)

We offer strong plants from 2" pots of this splendid new shrub for spring delivery at \$9.00 per 100; \$85 per 1,000.

NEW RED LEAVED BARBERRY

These plants are the true strain cuttings taken from plants propagated from the original imported stock. Strong plants from 2" pots. Spring delivery at \$10.00 per 100; \$90.00 per 1,000.

NEW ROSA KOKULINSKY

This rose has had a sweeping success in Europe, both as understock for low budded roses, as for Tree Roses, and is now adopted by the best rose growers and hybridizers. It is of vigorous growth, very few thorns, upright and very resistant against diseases. It makes a strong heavy, upright stem for tree roses, and is long-lived in contrast to Rosa Rugosa. By actual tests made in Europe lately it has proved to be superior to any other rose stock, and we believe it to be the future rose stock in the United States for tree roses, as well as low-budded roses. As it produces less seed than R. Mult., etc., it will always be higher priced, which is the only disadvantage we know it has; it is therefore advisable to produce your own seed. We have a very limited number of 4-year-old plants ready to produce seed, from 3½-6' tall and very strong. Price \$2.00 each; \$17.50 per 10; \$150.00 per 100.

SURPLUS OF SHRUBS

Hydrangea P. G., very strong plants, 2-3½', per 100.....	\$20.00
Crab Schneiddekeri, 4-5', per 100	55.00
Crab Bechtel, 2-3', branchy whips, per 100	30.00
Rosa Multiflora, strong transplanted stock for covering banks, etc., very heavy 3-year-old..... per 1,000, \$110; per 100, \$15.00	

Hardy Perennials and Rockery Plants

All our Perennials are hardy 1 or 2 year field grown plants, and will be shipped the same day as dug. Please send in your reservation for fall and spring now, as they will move fast at these prices.

Achillea millefolium rosea, cut-leaved, flower pink, compact head.
Anchusa Italica, dropmore variety; tall spikes of beautiful blue flowers.
Coreopsis lanceolata grandiflora; very desirable yellow cut flower.
Gaillardia grandiflora. One of the best cut flowers known.
Hardy Pinks; good for rockery and borders; mixed colors.
Hibiscus, giant flow. marshmallow; fine mixture of white, pink and red.
Nepeta mussini; beautiful lavender; fine for rockery and edging.
Phlox subulata; pink flower in early spring, one of the best rock plant.
Phlox, Miss Lingard. The best early white phlox for cuttings.
Phlox, Thor; deep salmon pink; one of the most popular.
Phlox, W. E. Egan. Soft shade of lilac with pink eye.
Sedum Acres. A fine low growing rockery plant; yellow.
Sedum Spureum. The best rock plant for dry places; showy crimson. flower in August.
Sedum Spectabilis. Popular pink; September. Fine for planting along driveways.
Shieves. Although for vegetable gardens, it has a very fine deep lavender roundhead of flowers in June. Good for rockery purposes.
Yucca filimentosa, 2-year. Adam's Needles. Very showy evergreen perennial.

Price per 100, \$6.00; per 1,000, \$50.00

NEW GYPSOPHYLLA EHRLE AND BRISTOL FAIRY

Both are wonderful improvements over the old double variety, and should not be missed in any perennials garden where better varieties are desired. Indispensable for florists.

Strong grafted plants from 2½" pot for 1930, per 100..... \$25.00

NEW COTULA SQUALIDA

This splendid rockery plant takes an unique place in the rock garden, as it is the only plant so adopted for stepping paths. When a few years old it makes the most perfect smooth, soft carpet, several inches thick, with its brownish-red foliage. It seems to grow even best in stepping paths frequently used, and will grow in any kind of soil. The plants offered are propagated from stock imported recently under special permit, not yet released. We therefore take orders only for Fall, 1930, delivery. Be sure to send your order in now, so you may get your propagation stock started, as our stock is limited.

Strong plants from 2" pots, \$2.00 each; per 10, \$17.50; per 100, \$150.00.
